EDUCATION

2022 - MAY 2026
SUKKUR IBA UNIVERSITY, SUKKUR, PAKISTAN
Bachelor in Computer Science BS (CS)

2020 - 2021
IBNE RUSHD GIRLS COLLEGE MPK
Intermediate

SKILLS

Programming Languages: Java, SQL, Python, XML, C++

Web Technologies: HTML, CSS, JavaScript, React

Development Tools: Visual Studio Code, Eclipse NetBeans, Code::Blocks, WordPress, Android Studio, Microsoft Suite, MySQL

Relevant Courses: Data Structures & Algorithms, Software Engineering, Database Systems, Principles of Marketing

Operating Systems: Linux | Windows

INTERESTS

- Coding
- Designing
- Blogging
- Traveling
- Volunteering
- Learning new technologies
- Research and Innovation

LANGUAGES

- English: Fluent
- Urdu: Fluent
- Sindhi: Fluent

PROFILE SUMMARY

Computer Science graduate from Sukkur IBA University with hands-on experience in software, web, and mobile application development. Skilled in React Native, React.js, JavaScript, Python, Java, C++, SQL, Firebase, and Cloudinary, with a strong foundation in software development, database management, data structures, and algorithms. Experienced in developing AI-powered applications, data preprocessing, LLM-powered chatbots using LangChain, Retrieval-Augmented Generation (RAG), and interactive applications using Streamlit. Also experienced in WordPress development, API integration, and building user-friendly solutions through academic and personal projects. A motivated and adaptable professional with strong problem-solving skills, eager to contribute to innovative and technology-driven solutions.

PROJECTS

Pure Root: Organic Products E-Commerce Website

- Designed and developed Pure Root, an e-commerce website offering a range of natural and organic products.
- Managed online catalog of homemade products including soaps, hair oils, face washes, serums, lip balms, and other essential items.
- Ensured all products were made from pure, organic, and natural ingredients to promote health and sustainability.
- Technologies used: HTML, CSS, JavaScript, PHP, WooCommerce.

MindEase: AI Virtual Psychiatrist

- Designed and developed MindEase, a web-based AI virtual psychiatrist for mental health support.
- Implemented AI-driven analysis to understand user queries related to anxiety, depression, and stress, providing personalized recommendations.
- Enabled virtual interactions simulating a psychiatrist's guidance to assist users in coping with mental health challenges.
- Technologies used: Python, Web Development, Natural Language Processing (NLP), AI.

Revive Fashion: Sustainable Fashion Mobile App

- Developed a mobile app for buying, selling, and renting pre-loved clothes to promote sustainable fashion.
- Built cross-platform frontend in React Native; backend with Node.js and MongoDB.
- Integrated Cloudinary for image upload and optimization.
- Aimed to reduce fashion waste and encourage eco-conscious shopping. Presented at the AgriBiz Symposium as a sustainability-driven tech solution.
- Tech Stack: React Native, Node.js, MongoDB, Cloudinary.

InsightIQ: AI-Powered Business Analyzer & Dashboard Analytics Platform

- Designed and developed InsightIQ, an AI-powered web-based business analyzer and dashboard analytics platform that transforms organizational data into actionable business insights.
- Built an AI-powered Business Analyzer using Retrieval-Augmented Generation (RAG) to ground LLM responses in the organization's real data for accurate, context-aware answers to natural language queries.
- Delivered centralized, real-time analytics across HR, Finance, Sales, Marketing, and Operations modules with exportable reports for data-driven decision-making.
- Implemented secure authentication with Firebase, role-based access control, and Stripe-based subscription payment processing.
  Technologies used: React.js, Node.js, Express.js, PostgreSQL, Firebase Authentication, Stripe, RAG, LLM.

EXPERIENCE

Social Media Manager

Open Source Foundation of Pakistan | April 2024 - Feb 2026 | Islamabad (Remote)

- Curate and manage content for social media platforms to enhance engagement.
- Develop and execute social media strategies to increase follower base and interaction.
- Analyze metrics to optimize social media campaigns and improve performance.

SEO Intern

Icreativez Technologies | Nov 2024 - Feb 2025

- Assisted in implementing on-page and off-page SEO strategies to boost website visibility and search engine rankings.
- Performed keyword research and competitive analysis to optimize content performance.
- Utilized tools like Google Search Console and Google Analytics to monitor and analyze SEO metrics.
- Collaborated with content and marketing teams to apply best SEO practices across digital campaigns.
- Gained hands-on experience in link building, digital marketing strategies, and understanding search engine algorithms.
